PROFESSIONAL SUMMARY

Results-driven Full-Stack MERN Developer with strong hands-on experience building scalable web and mobile applications using React.js, Node.js, MongoDB, and React Native. Experienced in AI integrations, REST APIs, authentication systems, real-time communication, and cloud deployment. Developed multiple production-ready projects across AI productivity, e-commerce, real-time messaging, and mobile applications. Strong problem-solving mindset with the ability to rapidly learn modern technologies and deliver clean, user-focused solutions.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO

Database: MongoDB, Firebase, PostgreSQL

Mobile: React Native, Expo, Android Studio (Kotlin)

AI & APIs: Groq API, OpenRouter API, AI Integration Patterns

Tools: Git, GitHub, Vercel, Cloudinary, Clerk, Stripe

PROJECTS

QuickAI — AI Productivity Suite

MERN Stack | Groq API | Stripe | JWT

- Built a full-stack AI productivity platform offering article generation, resume analysis, AI chat features, and productivity tools.
- Integrated Stripe payment gateway for premium subscriptions and implemented secure JWT-based authentication.
- Designed scalable MERN architecture supporting multiple AI-powered workflows from a single platform.

GreenCart — E-Commerce Platform

MERN Stack | Stripe | Cloudinary | JWT

- Developed a complete e-commerce application with seller dashboards, product management, and secure checkout flow.
- Integrated Cloudinary for optimized product image storage and Stripe for payment processing.
- Implemented JWT authentication and role-based access control for secure user management.

Chat App — Real-Time Messaging

MERN Stack | Socket.IO | JWT

- Created a real-time chat application with instant messaging, media sharing, and live online status tracking.
- Built responsive UI supporting seamless experience across desktop and mobile devices.
- Implemented authentication system with secure user session handling.

NutriScan — AI Nutrition Scanner

React Native | Expo | Groq Vision AI | Node.js

- Designed a cross-platform AI mobile application capable of analyzing food images and generating nutrition insights.
- Integrated Groq Vision AI for image analysis and connected the app to a Node.js backend API.
- Focused on mobile-friendly UI/UX and optimized performance using React Native and Expo.

EDUCATION

Bachelor of Computer Applications (BCA)

Netaji Subhas University, Jamshedpur

CGPA: 8.0 / 10 (3 Semesters)

CERTIFICATIONS

- AI Agents in TypeScript/JavaScript Specialization — Vanderbilt University
- Generative AI Data Analyst Specialization — Vanderbilt University
- Meta Android Developer Professional Certificate — Meta
- Node.js, Express, MongoDB Complete Bootcamp — Udemy
- Ultimate React Course 2025 — Udemy
- IBM DevOps, Cloud, and Agile Foundations — IBM

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Participated in HackHorizon Hackathon at Arka Jain University, Jamshedpur.
- Built and deployed multiple full-stack applications publicly available on GitHub and Vercel.
- Open to internships, freelance opportunities, and remote developer roles.
- Languages: English (Professional), Hindi (Native).
- Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability.
